CREDIT METER APPLICATION

Credit Meter Program

Pursuant to its Policy on Water Usage Credits, the North Shore Sanitary District shall allow the installation of one or more credit meters to determine the quantity of water not returned to the sanitary sewer system. The customer is responsible for the cost, installation and maintenance of that meter.

Customer Information

I hereby apply to the North Shore Sanitary District to install one or more credit meters for the purpose of determining the amount of incoming water usage that does not return to the sanitary sewer. I understand that the account is subject to all of the District's ordinances, rules and policies including but not limited to *An Ordinance Relating to Sewers and Sewer Systems*, *An Ordinance Establishing a User Charge System*, the *Ordinance Establishing Fees & Charges* and the *Policy on Water Usage Credits*. I am also aware that by installing a credit meter, I will no longer be eligible for participation in the summer credit program.

I have attached a specification sheet or other description of the type of meter(s) I propose for installation. I have also attached a plan, drawing or sketch documenting the proposed meter installation and demonstrating that the metered water will not be returned to the sanitary sewer system. I certify that the credit meter(s) shall meet or exceed the District's minimum requirements (attached) and shall be properly installed by a licensed plumber. I further certify that the meter(s) will accurately isolate water that is not returned to the sanitary sewer system. If it is later determined that a credit meter does not accurately isolate water that is not returned to the sanitary system, I understand that I shall be fully liable for payment of any credits granted under the credit meter program as well as additional fines, penalties and cost recoveries.

NORTH SHORE SANITARY DISTRICT – Credit Meter Installation Authorization

The aforementioned customer may proceed with the installation of the proposed credit meter(s). Following the installation of the meter(s), the customer must contact the District to schedule an appointment to have the installation inspected and the meter(s) sealed. There will be no charge for this inspection if the meter(s) is(are) conveniently located and readily accessible. The customer shall not receive any credits until such inspection is completed.
